Indian Institute of Information Technology, Lucknow
B.Tech in Computer Science and Artificial Intelligence – CGPA: 8.72/10
EXPERIENCE

Courses: OOPS, DBMS, OS, DSA
August 2023 – July 2027

SDE Intern – Coffee.io

Remote — Jun 2025 – Aug 2025

- Built a **project-based assessment module** (Java, Spring Boot, React, PostgreSQL) where candidates debug live codebases via **error logs**, graded automatically against hidden test cases.
- Developed a **read-only AI assistant** (LLMs, Redis, Docker) to provide contextual hints without edit access, preserving evaluation integrity; validated in **staging**.

PROJECTS

- 1. MediPulse** </> Feb 2025 – Present
MERN, FastAPI, Hugging Face Transformers, Redis, Kafka, Socket.IO, WebRTC, RAG Live Demo </>
 - Built a **multi-tenant healthcare SaaS** with **125 REST APIs**, **24 MongoDB models**, and **34 React pages**, supporting **appointments**, **live OPD queues**, **WebRTC consultations**, and **hospital portals** with **7-role RBAC** via **JWT & Google OAuth**.
 - Developed an **AI triage engine** combining a **Gemini agent**, **3 Hugging Face models**, and a custom **RAG pipeline** (using **text-embedding-004 & Cosine Similarity**) via **FastAPI** for accurate **disease prediction**, **specialty routing**, and **context-aware patient memory**.
 - Engineered **real-time OPD queues** and **virtual wallets** using **Socket.IO**, **Redis**, and **Kafka**, implementing **atomic transactions**, **distributed locks**, **idempotent refunds**, and **asynchronous event processing** for **concurrency-safe operations**.
- 2. Jagrit** </> Jan 2026 – Present
Node.js, React.js, Tailwind CSS, FastAPI, MongoDB, Redis, Kafka, XGBoost, LLM Agents Live Demo </>
 - Engineered a **bilingual news platform** with **live RSS/API ingestion**, **Gemini API** for **RAG Q&A** and **translations**, and a **3-tier fallback architecture** ensuring **100% feed uptime**.
 - Trained an **XGBoost** ranker via a **Kafka-Redis** feature store; built a **PyTorch NRMS** model to benchmark offline accuracy (AUC, nDCG) and simulated CTR using the **Replay Method**.
- 3. IIITLBachat** </> Oct 2025 – Present
React.js, Node.js, MongoDB, Gemini AI, Sarvam AI, Chart.js, Google OAuth Live Demo </>
 - Built an **AI finance platform** (MERN) featuring **multilingual voice expense entry** via **Sarvam AI**, **collaborative family expense circles**, and **weekly budget tracking** with **overspend anomaly detection**.
 - Engineered **AI receipt/PDF extraction** with **confidence scoring**, an interactive **finance chatbot**, and **dynamic insights dashboards** utilizing **Chart.js** for **spending heatmaps**, **investment projections**, and **real-time data synchronization**.

ACHIEVEMENTS

- Rated as **Expert** Codeforces(1809), **5-star** CodeChef (2137), **Guardian** LeetCode (2137).
- Solved **3000+ DSA problems** across Codeforces and LeetCode strengthening problem-solving skills.
- Selected for **Amazon ML School 2025**, among top 3000 from 85,000 applicants Proof </>
- Achieved a **rank under 50** in the **Amazon ML Challenge 2026** among **11,000+ teams**
- Secured rank of **186** in **Facebook Meta Hackercup Round-3** among 14000+ Participants Ranklist </>
- Qualified **Adobe Gensolve Hackathon**, ranked **top 5%** among 54000+ participants. Certificate </>
- ICPC Regionalist** at the **Amritapuri Regionals 2024-25** with team **Overshadowed**.
- Topped among **250+ peers** in **Freshers Cup 2024** by CP Wing, Axios, IIIT Lucknow
- Achieved All India Rank **15,503** in **JEE Advanced 2023** and Rank **9,932** in **JEE Mains 2023**.

SKILLS & OTHERS

- Languages:** C, C++, Python, JavaScript, Java, SQL
- Frontend:** React.js, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap
- Backend:** Node.js, Express.js, Spring Boot, Redis, Kafka, Fast API
- Database:** MongoDB, MySQL, PostgreSQL
- Machine Learning & AI:** PyTorch, XGBoost, Scikit-learn, Transformers, MLOps (MLflow), LLMs, Agentic AI, Prompt Engineering
- Courses:** Object Oriented Programming, Database Management System, Computer Networks, Operating System
- Technical Skills:** Data Structures Algorithms, Competitive Programming, Web Development, REST API Design, AWS
